

Kindergarten Ready- Summer Sight Word List

Please consider using this list with your child to help ready them for Kindergarten.

This list is set up in columns so you can cut-out the words and work with your child. The words are placed in emergent reading order, if your child has some phonemic awareness. If not, once they learn the letters in the alphabet the phonics from letter recognition will help them to learn the sounds.

May God bless the moments shared in preparing for your child's next step in their formal education.
